

Yes I support XM and really enjoy all aspects of it. Therefore I see no reason why traffic and weather should go away or change in any way. XM offers clear programming wherever you are where FM and AM do not. You can't receive the same station of FM or AM across the nation as you can with the same channel of XM. When you really need traffic and weather you can count on it with XM. I urge the FCC to reject the NAB's petition 04-160 and allow XM to continue it's programming.
